AVP FUNDS SICAV

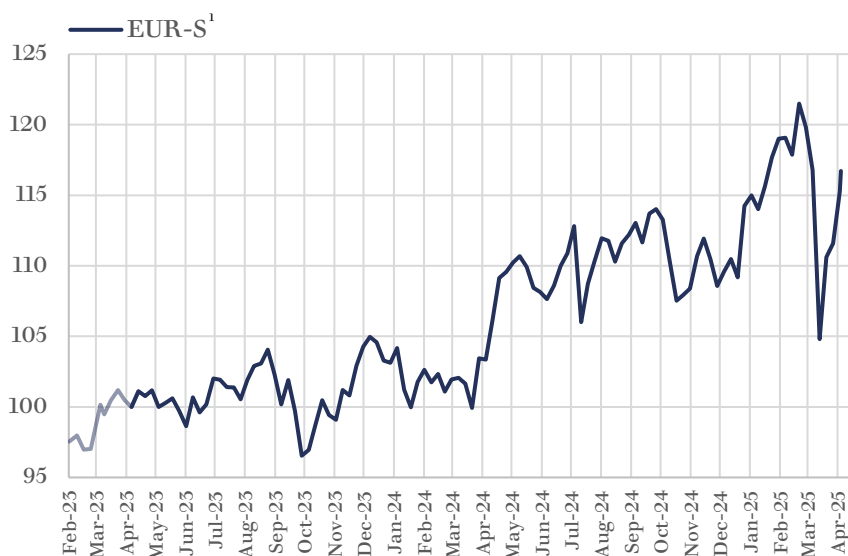

STRATEGY

Liquid, Diversified, Activist

The Fund comprises a portfolio of c. 15 of the most attractive activist situations within AVP's European home market, combined with 3-5 toehold positions qualifying as "value situations" with an activist angle. Its "shadow activist"-strategy taps into sources of alpha generation of traditional activist strategies, combined with benefits of active portfolio management and high liquidity. Investments are made on basis of AVP's independent analysis of risk-reward and likelihood that activists can unlock significant value for all shareholders. The Fund's advisory team has 30 years of first-hand activist and asset management experience combined with strong corporate and investor networks across the Nordics, Germanics and the UK.
